# Why do we need partnerships?

- Identify problems
- Identify the customers and providers
- Learn what has and has not worked
- Develop roles and responsibilities
- Leverage efforts
- Get solutions to where the problems are
- Measure outcomes and effectiveness
- COMMUNICATION

**SAFER • HEALTHIER • PEOPLE™**

# Successful Partnerships Require

- Understanding roles and “business” models
- Developing a working relationship
- Identifying common interests
- Determining value
- Developing trust
- Commitment to common goals

**SAFER • HEALTHIER • PEOPLE™**

# Types of Partnerships

- Exchange of information
  - ❖ Attendance at professional meetings
- Non funded collaborations
  - ❖ Standards setting activities
  - ❖ IQLM
  - ❖ CLIAC
- Funded collaborations

# Funded Collaborations

- Laboratory health systems and services research
  - ❖ College of American Pathologists
    - o Assessment of Best Practices for Standardized Quality Assurance Activities in Pathology and Laboratory Medicine
  - ❖ University of Pittsburgh
    - o Quality Assurance Activities in Pathology and Laboratory Medicine
  - ❖ RAND Corporation
    - o Evaluation of HIV Rapid Testing in the US
  - ❖ Wadsworth Center and Mount Sinai School of Medicine
    - o Genetic Testing Integration Into Clinical and Public Health Practice
  - ❖ National Quality Forum
    - o Establishing the IQLM as a private non profit organization

**SAFER • HEALTHIER • PEOPLE™**

# Funded Collaborations

- Public health capacity building and emergency preparedness
  - ❖ Association of Public Health Laboratories
  - ❖ University of Washington and Michigan Department of Community Health
    - o National Integrated Laboratory System
  - ❖ American Society for Clinical Pathology
    - o Enhancing Testing Practices in the Clinical Laboratory
